

MyCaseManagement Permission Levels

Given the versatility of ComplianceLine’s case management system, MyCM, it should be no surprise how its many functions and features can be segmented. Users can be assigned one of five designations in MyCM: Administrator, Editor, Author, Contributor, and Subscriber. This gives ComplianceLine’s clients options on how they want to set their system up and divide administrative responsibilities.

Easier Solutions

Looking for a simple software solution to take the hassle out of Case Management? We can help!

Contact ComplianceLine today for a demo and pricing on a comprehensive system to remove the stress!
