

Know the **FACTS** about Social Security Death Master Searches

Are You Compliant?

No employee, provider, or vendor should behave fraudulently!

Is your organization safe from bad actors who are using information from deceased individuals to gain employment, bill Medicare or Medicaid, or access other benefits?

What is the Social Security Death Master File?

The SSDM is a record of over 85 million deaths as reported to the Social Security Administration.

The SSDM includes the name, date of birth, Social Security number, and date of death for decedents on the list.

Many institutions search the SSDM, including healthcare organizations, financial institutions, security firms, government entities, and insurance companies.

Why Do I Need the Social Security Death Master Service?

Compliance, Human Resources, and your Credentialing Departments protect Healthcare Providers from fraudulent activity every day using a variety of tools.

The SSDM is a must-have resource to protect your organization from fraud, waste, and abuse.
